

INTRODUCTION

SketchUp enables participants to draw using a familiar pencil and paper paradigm in a software context. The Sketch Up Professional Training course provides students with an excellent choice for SketchUp user to learn the advance tool of Google SketchUp. This course is intended for students with 3-dimensional drawing or Sketchup experience.

LEARNING OBJECTIVES

By the end of the course, participants should be able to:

- ✓ Create terrain using sandbox
- ✓ Use advance tool to quicken workflow.
- ✓ Create multiple design of solid surface
- ✓ Create the 3d drawing to a realistic form by the knowledge of podium

TARGET GROUP

This course is designed for those who would like to learn to create quicker (and sometimes more accurate) 2 dimensional and 3-dimensional study models with the ease of Google SketchUp. This course is intended for students who want to start to create 3 dimensional models using Sketch Up.

COURSE DURATION

Full Time :1 Days (9:30am-4pm)

CAREER PATH

3D Visualizer, 3D Artist, Interior Designer, 3D Graphic Artist, 3D Designer, Architectural Visual Producer

COURSE CONTENT

DAY 1

TERRAIN MODELING

- Using sand box
- Creating text
- Exercise – design study

CREATING SECTIONS

- Section planes
- Section cuts

SHADOWS TOOLS

- Date and time
- Shadow setting

DAY 2

PODIUM PLUG-IN

- Light system
- Option setting
- Material rendering and rendering

START TO FINISH: MODELLING A INTERIOR SPACE

- Exercise – design study model
- Use datasets from AutoCAD
- Plotting setup & presentation
